HOW TO ORDER

COMMENT COMMANDER

1. Remove old diffuser from fixture.

1. Retirer le diffuseur du luminaire.

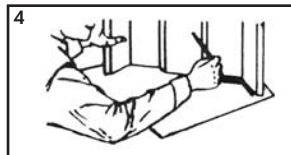

2. Measure exact length.

2. Mesure la longueur exacte du diffuseur.

3. Refer to Lens Guide-check to see which outline fits. Order by part number and length.

3. Consulter le guide-lentilles pour trouver le profil correspondant. Commander en précisant le numéro de la pièce et la longueur requise.

4. If lens does not match outlines, trace profile on sheet of paper. We require both inside and outside traces. FAX along with length and quantity required. Note whether diffuser is clear prismatic acrylic or smooth white acrylic.

4. Si la lentille ne correspond à aucun des profils, il faut alors en tracer les contours, intérieur et extérieur, sur une feuille de papier. Télécopier le tout en précisant la longueur exacte et la qualité désirée. Indiquer si le diffuseur est fait d'acrylique prismatique clair ou d'acrylique blanc lisse.
