Description

The ATTRACKT DASH is a revolutionary LED fixture for low-voltage track lighting system that combines sleek design with high usability. The 5-cell pre-installed interchangeable baffle minimizes glare and provides illumination that beautifully showcases any object or display. Additionally, an included opal lens in the package creates seamless integration and blend with the environment. It features tool-free installation, repositioning and adjustment of the accessories. This fixture is designed for architectural, task, and accent applications for residential and light commercial spaces.

Features

Body

Constructed from polycarbonate, this LED fixture features a slim linear profile with pre-installed individual 5-cell baffle and an included opal lens.

Available in 2700 K, 3000 K and 3500 K correlated color temperature.

Mounting

This LED fixture is a track insert designed for simplicity and convenience, featuring secure magnetic locking technology that enhances usability and offers significant savings on installation and maintenance.

Beam Spread

The fixture available in 36° beam spread.

Dimming

The track fixture is 100%-5% dimmable when used with compatible dimmable driver. See ATTRACKT System spec sheet for compatible dimmers.

Compatibility

Compatible with ATTRACKT low-voltage track lighting system.

LED Characteristics

High powered chip maintains a uniform intensity with a typical luminous flux up to 350 lumens and a typical CRI of 93.
