

PRECISION LIGHTING. REDEFINED.

HORIZON is an architectural track head designed for precise light control and flexibility. Featuring field-adjustable optics that seamlessly shift from a true 10° spot to a 60° flood, HORIZON allows designers to fine-tune beam angle and cutoff with confidence. With support for framing projectors, GOBOs, and a full suite of optical accessories, HORIZON delivers intentional lighting for museums, hospitality, offices, and architectural spaces where control and accuracy matter.
